What Are Rhyming Words?

Rhyming words are two or more words that sound the same at the end.

cat/hat

dog/frog

light/bite

Rhymes and word families

Many rhyming words will come from the same **word family**. For example, cat, bat, and rat all belong to the -at word family.

However, you may notice that the spelling pattern is different at the end of the words "light" and "bite," even though they still sound the same.

These words aren't part of the same word family, but they do rhyme. Rhyming focuses on the sounds, not the spelling.
